

# OWASP ZAP Security Scan Report

**Date:** March 31, 2025

**Target URL:** <http://www.itsecgames.com>

**Scanner Used:** OWASP Zed Attack Proxy (ZAP)

## 1. Scan Summary

### Spider Scan

- **Total URLs Found:** 62
- **New Nodes Added:** 43
- The spider scan successfully mapped the application's structure and discovered various endpoints.

### Active Scan

- **Total Requests Sent:** 121
- **New Alerts Found:** 0
- No critical vulnerabilities were detected during this scan.

### Alerts

- Risk = medium, confidence= high (1)
- Risk = medium, confidence = medium (1)
- Risk = low, confidence = medium (1)

## 2. Observations & Recommendations

No immediate security threats were detected.

Further manual testing may be needed to check for logic flaws, authentication issues, and hidden vulnerabilities.

Consider testing with **authenticated scanning** to analyse deeper security risk
